

2018 Snowrun Enduro Provisional Result

Provisional Results as at: 12/02/2018 09:00

Dear Competitors,

Timing Issues at the Snowrun Enduro

Firstly the club would like to apologise to all of you for the issues associated with the results and the delays in posting these. We had an issue with Special Test 1 (loss of power) that required the tests to be recorded manually and this delayed the results. While we review our timing kit options, for the Drivers Enduro we will be using transponders for the special test timing run by T-Timing, who time the Welsh & BEC events, and will assess how these work for us.

Regarding the results, we have checked the times and while there may be "conflict in times" where, for example, Experts appear to be quicker than Championship riders, the times are all relative within the class and the results per class are accurate. Where there were delays at the special tests we have credited people with the associated time delay if their time card showed a delay on that lap/check.

Any queries please email: entries@wtra.co.uk
